ELECTION/RESTRICTION

1. It is noted that claims 1-16 read on many thousands of different combinations of genes/nucleic acid molecules. The numerous combinations of SEQ ID NOS encompassed by the instant claims are patentably distinct by virtue of having different structures and encoding different combinations of proteins, such that each group of molecules is characterized by a different combination of functional properties. In view of this and the multitude of sequences submitted for examination by the USPTO, and because the multitude of combinations of SEQ ID Nos encompassed by the claims require different sequence searches that are not co-extensive, a search of more than one distinct combination of 1000 SEQ ID NOS would pose a serious burden on the examiner. Accordingly, Applicant must elect a single combination of 1000 SEQ ID NOs for examination.

This is not an election of species. Applicant is advised that examination will be restricted to only the elected combination of SEQ ID NOs. It is noted that while a separate election of particular combinations of 2000, 5000, and 10,000 SEQ ID Nos is not required (see independent claims 5, 9 and 13, respectively), examination of all of the claims will be restricted to the elected combination of 1000 SEQ ID Nos.

2. A fully responsive reply will comprise the election of a single combination of 1000 SEQ ID Nos to be examined.

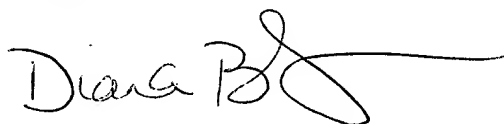

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Diana B. Johannsen whose telephone number is 703/305-0761. The examiner can normally be reached on Monday-Friday, 7:30 am-4:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, W. Gary Jones can be reached at 703/308-1152. The fax phone numbers for the organization where this application or proceeding is assigned are 703/872-9306 for regular communications and 703/872-9307 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703/308-0196.
